Min. Initial Investment:	\$100,000
Min. Subsequent Investment:	\$1,000
Sales Load:	None
Dividends:	Declared and paid annually

INVESTMENT OBJECTIVE

The Walden Equity Fund seeks long-term capital growth through an actively managed portfolio of stocks.

INTEGRATING ESG RESEARCH & ENGAGEMENT

The Fund integrates environmental, social and governance (ESG) analysis into the investment selection and company engagement process. Among the issues on which Walden evaluates companies and pursues shareholder engagement are: product safety and desirability, workplace policies and practices, environmental impact, community impact and corporate governance and accountability.

The Fund actively promotes corporate accountability and positive change through company dialogue and shareholder resolutions, proxy voting, public policy initiatives, and educational outreach. In doing so, the Fund encourages companies to recognize that the sustainability of their profits is connected, in part, to how they treat workers, customers, communities and the natural environment as valuable, long-term assets.

The integration of climate change risk into investment decisions and company engagement initiatives is a priority of the Fund, with special attention to the energy sector. (See reverse for more information.)

INVESTMENT STRATEGY

The Fund invests at least 80% of its assets in domestic and foreign equity securities. "Assets" means net assets, plus the amount of borrowing for investment purposes. Shareholders will be given 60 days advance notice of any change to this policy.

PERFORMANCE *as of December 31, 2014*

	3 Months	1 Year	Annualized			Since Inception (6/20/99)
			3 Year	5 Year	10 Year	
Walden Equity Fund (WSEFX)	5.13%	10.04%	16.75%	13.48%	6.99%	5.72%
Standard & Poor's 500	4.93%	13.69%	20.41%	15.45%	7.67%	4.76%

Performance represents Fund shares indicated at net asset value (NAV). The Fund has no sales charge and the gross expense ratio is 1.08% and the net expense ratio is 1.00%, due to expense reimbursement. The Adviser annually executes an expense limitation agreement and the Fund net expenses are currently (and have historically been) limited to 1.00%.

The index returns reflect neither the deduction of fees and expenses associated with a mutual fund nor the impact of taxes.

Performance data quoted represents past performance; past performance does not guarantee future results. The investment return and net asset value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Future performance may be lower or higher than the performance quoted. To obtain performance information current to the most recent month end, please call 1-800-282-8782 ext. 7050.

INVESTMENT RISKS

Equity securities (stocks) are generally more volatile and carry more risk than fixed income securities (bonds) and money market investments. The net asset value per share of this Fund will fluctuate as the value of the securities in the portfolio changes. Common stocks, and funds investing in common stocks, generally provide greater returns over long time periods than fixed income securities. Foreign investing involves risks not typically associated with U.S. investments, including adverse political, social and economic developments and differing auditing and legal standards. The Fund is comprised primarily of equity and fixed income securities and is subject to market risk. Stocks may decline due to general market and economic conditions or due to company specific prospects and circumstances. Please see the Fund's prospectus for additional information.

CLIMATE CHANGE RISK & ENERGY COMPANIES

Within Walden's overall ESG framework (see previous page), the Fund and Walden pursue a multi-pronged approach that integrates climate change risk in investment decision-making, corporate engagement, and public policy advocacy. In the context of Walden's commitment to prudent portfolio diversification, there are special challenges associated with investment in the energy sector, particularly companies leveraged to fossil fuels. Overall, Walden seeks investment in companies, as well as corporate engagement and public policy outcomes, that promote energy efficiency and natural resource conservation; strong and transparent greenhouse gas reduction policies, goals and results; and consistent public policy positions that call for emissions reductions consistent with the recommendations of the Intergovernmental Panel on Climate Change (IPCC). Walden also pursues shareholder initiatives—company dialogues and shareholder resolutions—that aim to minimize the environmental impacts that are unique to the energy sector. More proactively, Walden looks for opportunities to invest in companies with innovative, solutions-oriented technologies such as energy efficiency, carbon sequestration, or renewable energy development.

GLOSSARY OF TERMS

The S&P 500 Index is an unmanaged index that is widely regarded as a gauge of the U.S. equities market. This index includes 500 leading companies in leading industries of the U.S. economy. Although the S&P 500 focuses on the large cap segment of the market, with approximately 75% coverage of U.S. equities, it is a reasonable proxy for the total market.

Please read the statutory prospectus or summary prospectus carefully before investing. An investor should consider the Fund's investment objectives, risks, and charges and expenses carefully before investing or sending money. This and other important information about the investment management company can be found in the Fund's prospectus or summary prospectus. To obtain a statutory prospectus or summary prospectus, please call 1-800-282-8782 ext. 7050.
